

# Who are we?

*The European Society of Agricultural Engineers (EurAgEng) exists to promote the profession of Agricultural and Biosystems Engineering and the people who serve it.*

*There are 2200+ individuals via 21 National Societies.*

*The Society is particularly active in Conferences, Publications and Networking.*

*ENGAGE, the Strategic Division of EurAgEng, is a network of co-operating research institutes in the fields of agricultural, biosystems and environmental engineering.*

*EurAgEng is the European member of CIGR, the world wide agricultural engineering organisation*

**Bienvenue      Welcome**  
to this collaboration between SIMA and  
EurAgEng

**“How do EurAgEng and agricultural  
engineers contribute to innovation for  
sustainable intensification of  
agriculture?”**

# Winners of EurAgEng Award of Merit

## Ray Clay (JCB) 2006

“**Innovation** is most surely the watchword regarding sustainable food production.

Our industry has got to do the same for food production that the auto industry is doing for emissions. Best wishes and Good **Luck**”. – Ray

## Michael Teich (John Deere) 2008

“The evolution had to come first to create us humans, otherwise we would have no innovations at all!” - Mike

# Award of Merit Winners

Jacques Burel (Sulky Burel) 2010

"EurAgeng rassemble les ingénieurs agricoles, **cette communauté qui n'a de cesse de faire progresser et promouvoir une agriculture productive et intensive, grâce à l'écoute active des agriculteurs et de la société.**

**L'intensification n'a de sens que si elle est raisonnée donc durable.**

Economie et écologie sont un même combat pour les **agriculteurs dont la terre est un capital qu'il s'agit de faire fructifier avec respect et pragmatisme.**

Semons ensemble les graines du futur, fertilisons en croisant nos recherches fondamentales et expérimentales". - Jacques

# Award of Merit Winners

Franz Grimme  
(Grimme) 2011

Jos Metz

(Wagenigen UR) 2012

"Agricultural engineers have by nature a unique sense of curiosity combined with a strong drive for creating and innovating, to be meaningful for the whole world." - Jos

# Award of Merit Winners

Sepp Knüsel  
(RigiTrac) 2013

“Like musicians with perfect pitch,  
innovative agricultural engineers have  
a perfect feel for engineering applied to  
agriculture”. – Sepp
