

**“How do EurAgEng and agricultural engineers contribute to innovation for sustainable intensification of agriculture?”** 22 February 2015 – SIMA, Paris.

Pdf files of the following are provided.

**-Welcome and Award of Merit winners**

**-Background.** (Eberhard Nacke, Head of Product Strategy, Claas, Germany)

**-Agricultural Engineering; Meeting the strategic challenges.** (Mark Kibblewhite, Emeritus Professor, Cranfield University & President IAgrE, UK)

**-Agricultural robotics -in open fields.** (Michel Berducat, Irstea – Ecotechnologies Scientific Department, Clermont-Ferrand, France)

**-Think ISOBUS.** (Carsten Hühne; AEF Project leader Communication & Marketing Spokesman Europe & Kverneland Group, Germany)

**-La Haute Culture Sulky.** (Gilbert Jouan, General Manager, Sulky, France)

**-Innovations for Hillside Farming.** (Sepp Knüsel, Landmaschinen & Robert Kaufmann, Agroscope Tänikon, Switzerland)

**-Tractor Innovations.** (Martin Kremmer, European Technology Innovation Center, John Deere GmbH & Co. KG, Germany)

**SIMA 2015; EurAgEng Seminar** (Jean-François Goupillon, technical manager, AXEMA, France)

***PhD presentations from EurAgEng member countries.***

**-Control of a fleet of heterogeneous autonomous vehicles in off-road conditions.** (Audrey Guillet, Irstea, Clermont-Ferrand, France)

**-Tillage system effect on maize seed depth placement and fuel consumption.** (Luís Alcino Conceição, Universidad Politecnica Madrid / Instituto de Ciencias Agrarias e Ambientais Mediterranicas / Instituto Politecnico de Portalegre)
